HB 1307—LS 7401/DI 73+

(d) The state disaster relief fund is established to provide money to assist eligible entities in paying for the costs of damage to public facilities resulting from disasters.

(e) The fund consists of money appropriated by the general assembly. The fund shall be administered by the department. Expenses of administering the fund shall be paid from money in the fund. The treasurer of state shall invest the money in the fund not currently needed to meet the obligations of the fund in the same manner as other public funds may be invested. Interest that accrues from these investments shall be deposited in the fund.

(f) Money in the fund is appropriated to carry out the purposes of the fund as provided in this section. Money in the fund at the end of a state fiscal year does not revert to the state general fund.

(g) Subject to the restrictions under this section, the department may use money in the fund to make grants to an eligible entity that:

- (1) contains territory for which a disaster emergency has been declared by the governor;
- (2) has suffered damage to the entity's public facilities because of the disaster for which the disaster emergency was declared;
- (3) has applied to the department for a grant; and
- (4) complies with all other requirements established by the department.

(h) Except as provided in subsection (i), the department may not make a grant to an eligible entity under this section unless the damage to the entity's public facilities caused by the disaster exceeds an amount equal to one dollar (\$1) multiplied by the population of the entity. A grant to an eligible entity under this subsection may not exceed an amount equal to:

- (1) fifty percent (50%); multiplied by
- (2) the result of:
 - (A) the total cost of the damage to the entity's public facilities caused by the disaster; minus
 - (B) an amount equal to one dollar (\$1) multiplied by the population of the entity.

(i) If the governor declares more than one (1) disaster emergency in the same year for territory in an eligible entity, the department may, in addition to a grant under subsection (h), make a grant to the entity under this subsection if the total cumulative cost of the damage to the entity's public facilities caused by the disasters exceeds an amount equal to two dollars (\$2) multiplied by the population of the entity. A grant to an eligible entity under this

subsection may not exceed:

(1) the product of:

(A) fifty percent (50%); multiplied by

(B) the total cumulative cost of the damage to the entity's public facilities caused by all disasters in the year; minus

(2) any grants previously made under subsection (h) to the entity during the year.

(j) To qualify for a grant under this section, the executive of an eligible entity must apply to the department on forms provided by the department. The application must include the following:

(1) A description and estimated cost of the damage caused by the disaster to the entity's public facilities.

(2) The manner in which the entity intends to use the grant money.

(3) Any other information required by the department.

(k) The fiscal officer of an entity receiving a grant under this section shall:

(1) establish a separate account within the entity's general fund; and

(2) deposit any grant proceeds received under this section in the account.

The state board of tax commissioners may not reduce an entity's maximum or actual property tax levy under IC 6-1.1-18.5 on account of grant money deposited in the account.

(l) The department shall adopt rules under IC 4-22-2 to carry out this section.
